- Principle

- Slack
- Trello
- Drive

ABOUT

A product designer with 5 years experience in software development of iOS, Android, and Web apps for B2B and consumer markets. Among the complex projects, I helped to launch the startups from the ground up in Fintech (Costs), Internet of Things (Leantegra), Telecom (Noise Me) domains.

Why do I do UX design? For 2 good reasons: invent cool things and help people in the digital world to solve their problems.

EXPERIENCE

Company	Business	Role	Year
Worldwide	Various	UX, UI, Mob, Web	Jan 2018–Now

For now, I provide design services to my clients remotely and help them to build various products. The successfully delivered complex and simple projects are from areas like Fintech, Telecom, Healthcare, Blockchain and more.

You can find them on my Upwork profile or on my website.

Company	Business	Role	Year
Cue Connect	E-commerce	UI, Web	Mar–May 2017

An e-commerce marketing platform for online retailers.

My role was to improve the UI design of the web B2B platform. In 3 months I prepared the new visual and provided all the needed documentation. In the end, the new design helped the company to get new perspectives.

Company	Business	Role	Year
Leantegra	IoT	UX, UI, Web, Mob	Nov 2014–Mar 2017

An IoT company developing software products for indoor location intelligence.

Achievements (my design projects from scratch):

- A B2B web platform for beacon deployment and location analytics.
- iOS/Android apps of retail, shopping malls, e-commerce markets.

Result. The designed products helped Leantegra to get a good fit for projects in retail, aviation, and deploy beacons devices in more than 300 venues in the US, Israel, and Ukraine.

Company	Business	Role	Year
Avox	Telecom	UX, UI, Mob	Apr 2013–Oct 2014

A startup had developed telecom software for GSM termination traffic.

Achievements (my projects from scratch):

- An Android GSM termination app for earning money online.
- A web helpdesk interface for users of the termination app.

Result. The mobile product helped the company scale business in Europe and the US.
